SOLUTIONS**

VISION

We envision flexing our muscle further to strengthen our business partnerships and provide unparalleled logistical support to customers and corporations across the country.

MISSION

FormulaOne lends intelligent and customizable logistics solutions to all kinds of businesses, fulfilling customer needs with a professional finesse. Perpetually re-inventing and perfecting lean transport operations, we assure of an exceedingly efficient and reliable service.

HISTORY

Our time in industry, till present, has established our prestige as a competitive land-cargo company. Since the year 2004 our team at FormulaOne has been tirelessly working to make logistics an unchallenging affair.

Based on a history of collaborating with telecom giants, companied for Fast-Moving Consumer Goods (FMCGs), petroleum corporations and banks among many others we boast of a capability to provide customizable logistic function to our customers.

Our efforts have always been directed at meeting the specific requirements delineated by the client. This attentive-to-detail appeal makes it immensely convenient for the client to trust us with their transportation needs. Competitive pricing comes as another plus. Our time in the industry has afforded us a rich range of professional experience in dealing with different industries and handling goods of varied nature.

OUR RELEVANCE, FOR YOU

Whether you are an individual or a corporation logistics is always an integral part of your business. It is also a decisive factor in establishing or demolishing the credibility of your corporate presence.

This is where connecting with the FormulaOne team would be your smartest move. We ensure a swift, safe and in-time transportation of your goods – that may be of an inflammable, delicate or hefty a nature.

We take care to deliver your goods at the right place, on the right time and in the right quantity – while conducting successful logistics operations across the country.

VALUES

We have been able to secure the confidence of our clientele through our core values based on

-  Maintaining professional courtesy and respect
-  Prioritizing teamwork
-  Investing with trust and goodwill
-  Allowing accountability
-  Ensuring excellence/ dedication to provide quality service
-  Creatively developing better ways to serve
-  Operating safely
-  Investing generously in the training drills for our personnel
-  Acting with integrity
-  Evaluating customer needs as well as the feedback

Furthermore, we have been carefully crafting our logistical support to a broad spectrum of businesses in a manner that they choose to initiate long-term contractual relationships with us.

The hierarchal structure in our company engages both, the professionals (supply chain managers, route planners, inventory managing personnel) and the workforce on the other end to ensure a smooth run of operations.

SERVICES

Our distribution capabilities cover transporting general cargo and heavy consignments both with efficiency and extra care so as to meet the project deadlines issued by the client. We have a fleet of dedicated vehicles for the specific requirements of any given client. Moreover, our company vehicles come with installed equipment that is important for a dependable quality cargo-handling.

We can arrange for a solution to any transport requirement and act as the single-source logistics window for all deliverables moving through a supply chain.

Our team, with its expert supply-chain managers ensures not just the tracking and visibility of goods, but also facilitate the client with their inventory costs

and sourcing requirements. Through these solutions FormulaOne champions to deliver significant competitive advantage as a transport provider.

We take into careful consideration the uniqueness of our customer's requirements and cater to them accordingly by putting our network dynamics to use.

We also provide mentioned facilities to carry out lean logistical operations

Maintenance of vehicles on predictive basis

Providing in-house workshops, mechanics and technicians for smooth operations

Consistent monitoring for quality assurance

Real-time tracking facility to trace goods on online maps

Business intelligence, for maximizing customer satisfaction

Facility centers that are made available on request

Our service ensures professional efficiency and comprehensive customer satisfaction.

Dedicated vehicles and timely deliveries are undoubtedly two components in any logistic service you'd require for meeting your professional commitments within tight confines of time. We guarantee both of these. We assign specific vehicles for specific customers, as per their request and requirements, merely for their use as part of the dedicated-fleet service.

OPERATIONAL COMPETENCE

We remain present and proactively at client's service throughout the year for taking freight orders.

Hotline

The helpline service runs round the clock, integrating and connecting operations with customers. This single-service window resolves problems provides information as well.

Periodic Trainings for Team

We are immensely committed to the principle of training our team and evolving our operational capability as well updating their competence to meet challenges of all kinds – over topics including HSE, logistics, material handling and to implant a drive.

Electronic Data Interchange (EDI)

It is employed for trace-and-track purposes as well as for other processes such as daily reporting, PO generation, invoices, etc. Real time tracking is also offered to the client.

Dedicated and Diversified Vehicle Fleet

Assigned vehicles, for specific clients, are always available and on the go for them. We have a variety of these at our disposal, thus warranting first-rate logistic support. Examples include long haul vehicles, liquid carrier, refrigerated cargo, container vehicles

VALUE-ADDED SERVICES

We provide warehousing facilities in strategically-placed locations so as to give multiple options to our clients for resourceful distribution networks.

Our well-equipped warehouses serve as a space for storage purpose, which is often a cited need by our business partners. Additionally, warehousing reduces the inventory and transportation costs when it's a service well taken care of, which we at FormulaOne take very seriously.

Warehousing services mainly include storage, consolidation, repacking, documentation, labeling, invoicing, inventory management, control checks on entry and exit of goods, distribution and service support.

We also prioritize warehouse management and practically conduct it through a systematic and smart set of processes. Providing in-house lodgings for our staff serves to cut down the time for change overs, thus ensuring time-efficient operations.

Our material-handling services take into account the safety, health and environmental protection while storing, transporting and delivering all kinds of goods.

Strict controls are in place to ensure that the cargo is always adequately handled by our team, which with its expertise and training manages to maintain optimum conditions for different kinds of freight. We also invest generously in the stock-maintaining facility.

AWARD OF ACKNOWLEDGEMENT

In recognition for FormulaOne services in the aftermath of flooding crisis in Sindh, Telenor gave us an award of excellence based on our performance of uninterrupted logistics functions in the precarious scenario.
